

# Code Review Report

Language: python | Review mode: openai | Model: llama-3.3-70b-versatile | Generated: 2026-08-13 17:27 UTC

## Overall Assessment

1 finding requires attention, with a risk score of 2

Merge readiness: Not Ready

Code health: 92/100

## Findings Summary

Total findings: 1

Risk score: 2

Severity breakdown: Low 0, Medium 1, High 0, Critical 0

| Type         | Severity | Line | Message                     | Recommendation      |
|--------------|----------|------|-----------------------------|---------------------|
| Model Review | Medium   | 1    | Model-backed review result. | Refactor the logic. |

## Remediation Roadmap

| Finding      | Severity | Impact                                          | Suggested Action                                                                                                                           |
|--------------|----------|-------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Model Review | Medium   | Better control over output and easier debugging | Replace print statement with a logging mechanism, e.g., import logging<br>logging.basicConfig(level=logging.INFO)<br>logging.info('hello') |

## Source Code Snapshot

```
print('hello')
```
